

CAMP HAZEN YMCA

2021 COVID-19 PROTOCOLS

 <p>It is recommended to avoid unnecessary travel prior to attending camp. If possible isolate for the week leading up to your session.</p>	<p>PRE-ARRIVAL SHELTER IN PLACE</p>	 <p>Prior to attending camp you may be asked to perform an at home pre-screening, provide a proof of a negative test and/or of a vaccination. Which ones will depend on how accessible each of these are come next summer.</p> <p>PRE-SCREENING, TESTING, VACCINATION</p>	 <p>At check in you'll be asked to confirm the answers to our health screening questions. The questions are related to travel, symptoms and contact with others.</p> <p>DAILY HEALTH SCREENING</p>
 <p>All campers and staff are required to wear appropriate face coverings when inside common buildings and when unable to maintain adequate distance from others</p>	<p>FACE COVERINGS</p>	 <p>Camp Hazen YMCA will continue to maintain the increased disinfecting and cleaning protocols that proved successful from last summer.</p> <p>DISINFECTING & CLEANING</p>	 <p>Regular handwashing will be incorporated into our daily schedule. We have built additional hand washing stations around camp for this purpose. Sanitizer is readily available throughout the camp.</p> <p>HAND WASHING & SANITIZING</p>
 <p>Group sizes will be determined based on the latest guidance from Connecticut's Office of Early Childhood. As of 1/1/21, 18 children can be in one cohort. A cohort is the number of different children your child will interact with. This means we will be able to have two of our traditional groups in one cohort.</p>	<p>COHORTING</p>	 <p>Last summer we had great success of serving food cafeteria style, and then each group found a place outside to enjoy their meal. We will maintain or adapt our food service procedures to ensure we follow up to date guidance, while keeping our traditions alive.</p> <p>FOOD SERVICE</p>	 <p>After running a successful day camp program last summer, we feel confident in the adaptations we have made to each of our activities based on industry standards, recommendations from the state and the CDC. If you have any specific questions, feel free to reach out.</p> <p>ALTERED ACTIVITY</p>
