PROGRAM GUIDE

This booklet is full of all of the activities Hazen has to offer. They are separated by Program Areas (Creative Arts, Land Sports, Outdoor Pursuits and Water Sports) based on the camper's grade they will be entering in the fall. How you sign up for classes is different depending on the session you attend. Find your session below to learn how to best use this guide.

Progressive Programming

For activities, campers are split groups based on grade: 3rd - 5th Grade, 6th - 8th Grade, and 9th - 10th Grade. Each age group has a unique offering of classes. Please refer to the chart on the next page for this list. The progressive style to our programming ensures there is something new to look forward to year to year at Hazen. Within a class, our staff are trained to teach to the level of the child. This means that a Guitar class, for instance, can have beginners and advanced players at the same time!

Traditional Camp - Two Week Sessions: A,B,C & D

5 Day Skill Classes

Camp Hazen YMCA is committed to giving children skills! Our program areas are intentionally focused on introducing activities to our campers and then teaching them to develop these skills. Over a two week period, each camper will take 7 five-day skill classes. Each class lasts for one hour and fifteen minutes. During the course of the five days, campers will be taught the basics and then given the opportunity to advance their skills through practice under the guidance of trained staff. Hazen has developed a detailed curriculum, and each of our counselors follow thorough lesson plans to ensure quality and consistency in our program areas. In just these five days, campers may develop an interest that will last a lifetime!

Program Sign Ups

Campers will take up to four skill classes each day. In your [CampInTouch account](#) fill out the Activity Preference Form by ranking all of the available activities and submitting the form PRIOR to your child's arrival.

The Activity Preference Form will take each camper's choice of activities in their age group and generate a two week schedule based on the order of their desire to participate and class availability. On the campers' first morning at camp, they will be given schedules based on those preferences. After the first day of classes, if campers wish to switch or change their schedule, they may talk to the program area directors.

3rd to 5th Graders

We want our youngest campers to have a well rounded program experience. Therefore, each camper will sign up for bundle of activities from each program area. The classes are made up of a group of activities within a specific program (i.e. Land Sports Bundle A includes one day of Skateboarding, Archery, Basketball, Gaga & Tennis.) Before camp, use the online 'Activity Preference Form' campers will have the chance to rank their ideal bundle selection.

6th to 10th Graders

Campers in 6th through 10th graders have the chance to take multiple classes in their favorite Program Area in one day based on preference and class availability! Every camper will have the opportunity to take at least one class, but up to three, in Water Sports and Outdoor Pursuits. Based on their preferences they will also have the chance to take a total of zero to two classes in Creative Arts and Land Sports. These will total to 7 skill classes over the course of the two week session! This is done simply by ranking those classes near the top of their 'Activity Preference Form' on your CampInTouch account.

One Week Sampler Camp Session

Program Sign Ups: On check in day, campers will complete their request form. Each program area will have several packages for campers to choose from. The packages contain a collection of activities within each program area (i.e. Land Sports Bundle A includes one day of Skateboarding, Archery, Basketball, Gaga & Tennis). Our goal is to give campers a diverse sampling of activities offered.

OUTDOOR PURSUITS

Climbing

This class will teach you the proper technique for climbing different elements such as the Climbing Wall, Alpine Tower, and Deadman's Cliff (real rock). You will start off easy and work your way to more difficult elements so that everybody can learn and improve together.

Mountain Biking

Mountain biking is an exciting and thrilling class! While you do need to know how to ride a bike before this class, don't worry if you aren't all that great on a trail! We will start off easy biking basics building up to small jumps over rocks and sticks. We will ride some of the tracks we have around camp with trips to Oak and around Cedar Lake! Bike maintenance may also be reviewed in some classes if the sun decides to take a siesta (rainy days)!

Outdoor Survival

In this class, you will be taught skills that could help you to survive in the wilderness. You will also learn how to sort brush into tinder, kindling, and fuel which you will use to make your own fire. You'll also spend two days learning the basics of fishing and testing out your newfound skills on Cedar Lake. Finally, you will be taught basic First Aid skills which would certainly come in handy in a survival situation.

Outdoor Cooking Choice

Filled with cinnamon apples, orange muffins, pancakes, and more, this class is the best tasting one yet! Campers get to build their own menu from the variety of recipes we have to offer. You will learn how to build a great fire for you to cook these delicious snacks on. We start off with some s'mores and by the last day, we will be cooking up a storm!

Activities for 6th – 8th Graders

LAND SPORTS

Archery

Archery is a target sport activity which is fun for all ages. You will learn techniques on proper form on the archery range.
